Missionaries of the Week: Garrett & Joanna Schlake

*In February we have a student weekend coming up where we will cover the book of Jonah, and have other trainings and workshops. Please pray for students to sign-up and to be engaged! *The Christian students are not isolating themselves. Even with the semester nearly over, new students continue to contact me or join our groups every week. Also, it is great because some of them are brought by other students!

*The Fall semester ended great! Even though groups have shrunk, they are still in a MUCH better place than last year, and we have students who are ready to do some outreach and see them grow the coming semester! *The past 3 years the Spring semester has been a challenge with student having all their exams the first two weeks and not transitioning right into other activities. Please pray this semester will be different without a hiccup between the two semesters. *Please pray new relationships would form and no one would feel isolated from the group (French culture is even more clique-based than American). *After 16 years of having a drivers license I need to go back to driving school to get a French one. It is not only expensive (\$1750+), but also extremely difficult compared to the American one and it needs to be done with a manual transmission. Our Church in Toulouse continues to go through big changes on almost every end, especially since our council president just announced his family is moving to another city. Please pray for new leadership to step in and also for our church's finances (we are in extreme deficit)!
